A RIOT AT BELFAST.

Parnellites and McCarthyites Fight With Fists, Sticks and Chairs.

HENRY HARRISON SEIZES THE LEAGUE OFFICE, DOCUMENTS AND MONEY.

Parnell's Plan of Campaign in America—The Kaiser Becoming Cooler—Government Troops in Ulster Revolt and Shoot Their Officers—A Russian Admiral Punished—Egypt's Army—Foreign News.

BELFAST, March 3.—Mr. Henry Harrison, Member of Parliament for Middle Tipperary, visited the offices of the Belfast branch of the National League yesterday and seized all the money and documents he could lay hands on. The members of that branch of the League were hastily summoned and a fiery discussion followed. The police, who were called in by Harrison in more vigorous than polite language and repudiated the authority of the Central League. A number of Mr. Harrison's friends arrived upon the scene while the discussion was going on and declared that the Dublin or Central branch of the League had authorized the seizure made by H. M. Harrison, owing to the disorganized state and disloyal attitude of the Belfast branch towards Mr. Parnell. Mr. Harrison and his friends then declared the branch dissolved. Free fight followed between Mr. Harrison's friends and their opponents of the Belfast League. The battle was of a most stubborn character, fists, sticks and chairs being freely used on both sides. Finally the police appeared in force and eventually cleared the League building of its fighting occupants. Rival meetings composed of the supporters and opponents of Mr. Parnell were subsequently held, at which it was resolved to support Mr. Parnell and Mr. McCarthy, respectively.

LONDON, March 3.—Mr. Parnell is determined to follow up his successes in Ireland by the immediate conversion of America, and he has chosen a corps of deputies well fitted to make an impression here. Henry Harrison is the stalwart young man who, after a contest between Mr. Morgan and a policeman's baton at Tipperary, receiving on his own head the blow intended for the statesman. Mr. O'Kelly is a former American. Mr. Reardon is one of the more aggressive men in the National League, and John O'Connor was entrusted with United Ireland immediately after his capture by Parnell. They will follow in the wake of the McCarthyites, and stump the United States from Canada to the Gulf.

Mr. O'Kelly said yesterday that he had no doubt of the success of the mission. The party, he said, were like the head of Ireland, with Parnell, because they know Ireland as a nation not Ireland as the foe of the English party politics. They knew the home rule that Parnell wants is real home rule and not a mockery. Mr. O'Kelly added that he was sorry for associates who had been deceived by Mr. Parnell, and believed that with two or three exceptions, they were sorry for themselves. The union of the party under the old leadership was a sign of a political party politics. They knew the home rule that Parnell wants is real home rule and not a mockery. Mr. O'Kelly added that he was sorry for associates who had been deceived by Mr. Parnell, and believed that with two or three exceptions, they were sorry for themselves. The union of the party under the old leadership was a sign of a political party politics.

Before taking further steps for the collection of money in America the supporters of McCarthy will have to get rid of their delegates, Messrs. Cox and Fox.

O'CONNOR TRIP. The Standard says that T. P. O'Connor, M. P., will refuse to identify himself with either section of the Irish party on his return from America.

CHALLENGES PARNELL. DUBLIN, March 3.—Prior to his departure for America, James C. O'Connell, M. P., for the North Division of Cork, delivered an address in which he challenged Parnell to contest any division in Cork that he chose, and said that a McCarthyite member of Parliament would resign his seat in order to enable him to engage in the proposed contest.

Germany and France. PARIS, March 3.—That the disturbance caused by the visit of the Empress Frederick to this city has not entirely subsided is shown by the fact that the air is full of rumors of changes of a diplomatic nature. It is reported that, in the event of the Empress being made, M. Herbet, the present French Ambassador at Berlin, upon whose shoulders a considerable share of the blame of the unpleasantness will be put. It will be sent to London as the successor to M. Waddington, the present French Ambassador to Berlin. On the other hand, rumor has it that Herr von Bismarck, the German Ambassador at Constantinople, will succeed Count von Munster as German Ambassador at Paris. Still according to these political reports, M. Waldersee, ex-Chief of the Government staff of the German Army, who is now in command of the Ninth Army Corps, will replace Prince von Bismarck-Schönhausen as German Ambassador at Aix-la-Chapelle. The latter it is announced will resign the important position he now holds.

THE KAISER MOLIFIED. BERLIN, March 3.—The Emperor, mollified by more recent representations from his mother and grandmother, has under consideration the withdrawal of the ultimatum last week to Alsace-Lorraine for increased stringency on the frontier. That the order was in retaliation for the ill-treatment of the Empress Frederick there is no doubt. On April 1, instead of passports, a system of intimidation was to come into use whereby all foreigners coming into the Reichland to reside should announce their presence to the authorities and all their changes of residence. For the present this is abrogated, but it is believed in Berlin that the Kaiser will change his mind.

THE EMPRESS FREDERICK. LONDON, March 3.—The Times Paris correspondent quotes Empress Frederick as saying: "Had I suspected that my visit to St. Cloud would occasion the slightest resentment I should never have thought of it. But when one is in a foreign country and placed as I am, there is a great risk of the simplest actions being misunderstood."

Mrs. Woods' Will. LONDON, March 3.—It was announced on Feb. 4 that an attempt would be made to break the will of the late Mrs. Woods, the aunt of Mrs. O'Shea, who bequeathed the latter a large fortune. Public allusions to Mr. Parnell's possible interest in this fortune induced Mrs. Woods' brothers to bring an action to have the will declared invalid on the ground of undue influence, and on the day mentioned application was made to Justice Jones for an order to the effect that Mrs. Woods' will should not be produced. These documents included diaries of Mrs. Woods, which, it was said, would show that lady in a mental condition to be such as to render her incapable of making a will. The application, which was made in the name of Charles and Sir Evelyn Wood, was to-day refused by the Court.

FIREMAN SAVED DISCHARGED. LONDON, March 3.—The fireman, Sadler, who was arrested on Feb. 18 last, the day the woman named Francis Coleman, otherwise known as "Carrotty Nell," was found murdered in Whitechapel, and who was charged with having murdered her, has been discharged. The police could not collect sufficient evidence to connect him with the crime, which is now definitely placed to the account of the mysterious and unfathomable murderer whom the police and public know only under the designation of "Jack the Ripper."

A CRACKER COMBAT.

A Struggle Between Rival Monopolies to Control St. Louis Trade.

THE NEW YORK AND AMERICAN BISCUIT COMPANIES AT ODDS.

Rumors That the Former Intends Erecting a Mammoth 800,000 Cracker Plant in This City—Agents Appointed and the First Shipment En Route—Why the Fight Opens Here.

LONDON, March 3.—The Queen has concluded, the American cracker, Berlin has "franchise" for the present at least. It would cost too much to transport the scenery to Windsor, where she hopes to entertain the Emperor Frederick with a play to the ruler Majesty will be content with "The Gondoliers."

A CONSERVATIVE BOURGEOIS. LONDON, March 3.—The election to fill the seat of George Kynock, M. P., deceased in the Transvaal, will have to be deferred for a month to await the arrival of a certificate of death. Aston Martin is a Conservative borough.

A STUDENT'S "CADAVER." LONDON, March 3.—What at first promised to be a quiet election in the House of Commons to-day, replying to a question on the subject, said that he could not give facilities to pass a bill compelling writers of articles appearing in the newspapers to attach their names to such articles, as any action in this direction would tend to restrict the liberty of the press.

Didn't Wear a Court Dress. NEW YORK, March 3.—The Tribune to-day says: Some comment has been called forth by a recent Berlin letter in *Galignani's Messenger* of Paris, in which it was stated that Mr. Parnell, who is reported to have appeared at some public function arrayed in a gorgeous "court dress," with knee breeches, lace and bullion fringes. However, it is not a court dress, but a suit of the latest one certainly is not true. In a private letter to a friend in this city, dated Feb. 20, Mr. Parnell says:

The pretenses to send me to Siberia, that I wore at the Schlegel court last Saturday night a court costume. It is not very tall, it is not very long, it is not very wide, it is not very American simplicity in dress, please tell any of my friends who allude to the story that at that time I was wearing a dress of an American gentleman and was proud to.

THE Revolution in Chili. LONDON, March 3.—A dispatch from Chili by way of Buenos Ayres, to-day, states that three battalions of infantry and the entire Fourth Regiment, all forming part of the Chilean Government troops stationed in the neighborhood of Pisagua, have shot their officers and declared themselves in favor of the revolutionists.

MUST NOT SUPPLY THE INSURGENTS. BERLIN, March 3.—Ship owners have been warned by the Government not to send any raw material to the Chilean insurgents.

A Russian Admiral Punished. ST. PETERSBURG, March 3.—The Admiral who was sent to Siberia, because he struck work on account of a grievance has himself been sent to Siberia. The Grand Duke Alexis, High Admiral of the fleet, is responsible for this act of justice.

THE Egyptian Army. CAIRO, March 3.—The Egyptian army has been organized under English officers, even down to subalterns, and it is as much a British army as the native imperial troops in India. The army is rapidly recruiting its forces, and the new soldiers are drilled at most without intermission. The forces now at Tokar consist of only 2,000 men and will be increased to 10,000 before an advance could be made with any prospects of success.

THE German Artillery. BERLIN, March 3.—The Emperor yesterday was present at lunch with the officers of the Artillery of the Guard. In reply to a toast the Emperor said that in view of the improvements recently made in field and siege guns, and the rapidity of the new developments, the artillery must be regarded "as the backbone and the marrow of battle." Gen. von Waldersee, who seems to be entirely restored to the Emperor's favor, was present at the lunch.

Affairs in Argentina. BUENOS AYRES, March 3.—Dr. Chas. Pellegrini, President of the Argentine Republic, has summoned the managers of the private banks to his presence in order to solicit financial assistance for the Government. It is believed here that the 2 per cent tax levied on private bank deposits will be repealed if the bankers come to the Government's assistance.

A French Bank Falls. PARIS, March 3.—The announcement made yesterday that one of the leading banks of Berge had suspended payment turns out to have been a rumor. The liabilities are estimated at 6,000,000 francs. No reason is given as yet for the suspension.

Foreign News in Brief. Mr. Parnell will probably spend St. Patrick's Day in Cork. The young Czechs have been victorious in the elections throughout Bohemia. A London house in the Argentine trade has been relieved by a syndicate with \$200,000 capital. Italy has provided money to represent Italian labor products at the Paris Labor Exhibition.

A CRACKER COMBAT.

A Struggle Between Rival Monopolies to Control St. Louis Trade.

THE NEW YORK AND AMERICAN BISCUIT COMPANIES AT ODDS.

Rumors That the Former Intends Erecting a Mammoth 800,000 Cracker Plant in This City—Agents Appointed and the First Shipment En Route—Why the Fight Opens Here.

THE NEW YORK COMPANY'S AGENTS. A member of one of the St. Louis cracker firms in the American Biscuit Co. said: "I certainly believe that the story of the New York Biscuit Co. intending to build a cracker manufactory in St. Louis is true, and I know that they have already taken action to complete the trade in this field. Ford & Doan have been appointed their agents, and some of the New York Co.'s plants will keep the market supplied with their goods by consigning direct to Ford & Doan. This has never been done before, and the New York Biscuit Co. has never had any other representatives in St. Louis. It looks to me as if they would make a reach for trade in this way, and should they find it possible to enter and remain in this market, they will certainly establish a true plant in St. Louis."

HAVE ENTERED THIS MARKET. Mr. James L. Ford, of Ford & Doan was seen, and said: "There have been arrangements made by which we are to represent the New York Biscuit Co. and handle their goods in this market. It is their first attempt to reach the St. Louis market. For some time past one of the plants of that company, located at Ottumwa, Ia., has shipped to one or two St. Louis houses, but not in quantities sufficient to make a business. The New York Biscuit Co. has decided to make a direct, and competition with the St. Louis houses begins in earnest. Most of the shipments made by the New York Biscuit Co. are made by the New York Biscuit Co. Wm. Cartan, the manager of the New York Biscuit Co.'s plant in that city, was in St. Louis last week and closed arrangements with the New York Biscuit Co. to be made from the other plant to be direct, and competition with the St. Louis houses begins in earnest. Most of the shipments made by the New York Biscuit Co. are made by the New York Biscuit Co. Wm. Cartan, the manager of the New York Biscuit Co.'s plant in that city, was in St. Louis last week and closed arrangements with the New York Biscuit Co. to be made from the other plant to be direct, and competition with the St. Louis houses begins in earnest. Most of the shipments made by the New York Biscuit Co. are made by the New York Biscuit Co. Wm. HAVING A LIVELY TIME.

THE TWO WOMEN'S HUMANE SOCIETIES AT LOGGERSHEADS.

Mrs. Gause and Mrs. Meiser Indorsed by Two Boards—Mrs. Brooks Denies Certain Statements of Mrs. Gause—Mrs. Comstock Has Something to Say.

One of the children's humane societies, known as the "Band of Mercy," has taken sides with Mrs. Nora E. T. Gause and Mrs. Cora A. Meiser in the dispute which has arisen between these ladies and the ladies of the Women's Humane Society. The latter organization, as has been published, passed a resolution aimed at Mrs. Meiser and Mrs. Gause in which the society requested the public to give no donations intended for them to any body unless they had credentials from their organization bearing the seal of the society. The Golden Chain, another children's humane society, issued a notice also aimed at Mrs. Gause and Mrs. Meiser. This notice stated that the Golden Chain had no canvassers soliciting for them, and the public were warned to make no donations for the society to any parties calling on them.

Mrs. Gause and Mrs. Meiser Indorsed. Two of the six branches of the "Band of Mercy," which Mrs. Gause and Mrs. Meiser organized, held meetings Sunday and passed resolutions endorsing these two ladies. One band passed the following:

Resolved, That the Benton Band of Mercy, at their regular meeting, at the Working Girls' Free School and Library, 1210 Lafayette avenue, do hereby return their sincere thanks to Mesdames Gause and Meiser of the National Humane Society for their efforts in organizing and supplying them with the various humane papers, leaflets, pledges and badges necessary to the success and information of such a band; also to the citizens of St. Louis for their liberal contributions to these ladies for the aforementioned use.

Mrs. Lucy A. Wiggin, President.

Mrs. Annie Mills, Secretary.

A similar resolution was passed by the Willing Workers Band of Mercy at their meeting held at Bethany Mission Church, Twelfth street and Park avenue. Mrs. Ida J. Holt is President and Miss Agla Bell Davis Secretary of the Willing Workers' Band, and the resolution was signed by them.

Mrs. Gause in speaking this morning of the trouble between Mrs. Meiser and herself and the Women's Humane Society said:

"I do not know why those ladies are opposing us. Mrs. Meiser and I helped them perfect the organization of the Women's Humane Society. The society was formed when we came here, but was without any organization, and for the assistance we rendered them in perfecting an organization we were elected honorary members. Their records will show. The children's humane society for which we have been canvassing and working is known as the Band of Mercy. There are six branches or bands here and they are all among children of poor parents, into whom we endeavor to instill humane ideas and to teach them by distributing humane literature among them and having them instructed by teachers. Our work conflicts in no way with that of the 'Golden Chain' and 'Willing Workers,' as Mrs. Brooks calls the children's humane society which she conducts. The Golden Chain is composed of children of well-to-do parents entirely, so that our fields are entirely different. We were the first to form a Children's Humane Society here. The first society was organized by Mrs. Meiser. It was formed at the First Presbyterian Church, of which she is a member, and was known as the Earnest Workers Band of Mercy. Mrs. Holt was placed in charge of it, and it was there that Mrs. Brooks received her first instructions in children's humane society work. She attended the meetings of Mrs. Holt's society for weeks and there got her knowledge of the work. Now she is opposing our society, although we are not in any way interfering with the work of her organization."

Mrs. Comstock Talks.

Mrs. T. G. Comstock, President of the Women's Humane Society, in explaining the resolution passed by that organization, said: "Our society has no quarrel with Mrs. Gause or Mrs. Meiser. I do not know of any instance in which Mrs. Gause or Mrs. Meiser represented that they were soliciting for our society. We think a great many people who gave to them did so under the impression that the money was for local humane work. We merely wished to correct the impression. The money intended for local work could reach one of the local societies. The Missouri Humane Society has been in existence four years, and the Women's Humane Society has been organized three years. The two fill the field pretty thoroughly. I think, and there are also local Children's Humane Societies organized by local ladies. I think it is a reflection on our ladies to come here from other places and enter the field and organize other societies. As to the claims of Mrs. Gause and Mrs. Meiser, they assisted us in perfecting our organization. I will simply state that we organized our society on Jan. 1, 1888, and our first, last and only work for organization was in connection with the mass meeting held by us the following May. No benefit that ever I could discover grew out of that mass meeting. It was a failure. The only failure in the history of the society. When these ladies came here they gave us the impression that they were working under the auspices of the National Humane Association. I don't remember their making the claim that they were, but their talk left that impression on us and we made no attempt to question them. They told us of how they had been organizing mass meetings all over the country and of the benefits to be derived from them, so we held one believing it to be the proper thing to do. We gave them a letter for getting up a mass meeting was \$50, but as our organization was new they agreed to get up ours for \$50. We were to also pay their board bill with the \$50. The letter from the Secretary of that society, which is the National Organization, the President being in Chicago and the Secretary having his office in Cincinnati, was as follows:

AMERICAN HUMANE ASSOCIATION, CINCINNATI, Feb. 10, 1891.

Mrs. T. G. Comstock, President Women's Humane Society, St. Louis.

DEAR MADAM:—In reply to your letter of the 20th inst. inquiring about traveling agents, the American Humane Association has no traveling agents to collect money or receive subscriptions for its treasury. The American Humane Association does not employ agents to organize societies anywhere, and has no paid agents for any object, nor any traveling officers. The American Humane Association does not countenance canvassers going into any community to collect subscriptions or advertisements for outside periodicals, or to organize branch societies, for it would injure and conflict with the interests of already existing local societies.

"If a State or county organization employs an agent to organize humane societies or to collect subscriptions they should give them written credentials granting them the authority to work in their own individual honor."

I have the honor to remain, yours very respectfully,

Mrs. T. G. Comstock, President Women's Humane Society, St. Louis.

"While they claim that they do not collect for the National organization," continued Mrs. Comstock, "still the fact that one or both of them were traveling agents for the National organization, and they mention the fact that they are connected with it, naturally leads one to the belief that they in some manner represent it, while that letter shows that they do not."

Mrs. Tudor Brooks denies that Mrs. Nora Gause assisted her in organizing the first Children's Humane Society in St. Louis, claiming that she, Mrs. Brooks, organized a Kind Words Society in 1878, the Eagle Society and the Elliott Society in 1879, the Eagle Society and the Elliott Society in 1880, and the Lucas Place Society in 1885.

WILL INJURE MISSOURI TRADE.

Great Opposition to the Bill in Reference to Railroad Rates.

The St. Louis merchants of all classes are very considerably exercised over the subcommittee's bill No. 97, in which it is provided that railroads shall not change their freight rates without giving ninety days' notice. This bill has a strong following in the Legislature and came very near being passed yesterday, but owing to the efforts of the St. Louis Senators its consideration was postponed. This postponement, however, is not regarded as final, as a telegram was received by a member of the Board of Directors of the Merchants' Exchange, it is believed that the bill would have become a law, or at least would have been sent to the Governor for his signature. The detrimental influence which such a law could have is fully appreciated only by those who have given the matter some degree of study. The argument urged in favor of its passage is that the railroads at the time that the crops are harvested have been known to raise their rates on ten days' notice, and then lower them when the rush was over. It was for this purpose of protection of the farmers against this that the bill was formulated. The effect, however, according to all shippers and receivers, would be to build up the industries of the States, the expense of Missouri, and particularly to destroy the commerce of St. Louis. No one familiar with the manner in which the bill has been introduced is concluded, argued, can fail to recognize the fact that as soon as the Missouri roads fixed a rate, those of neighboring States, were only ten days' notice of change in rate could be made under them, and deprive them of nearly all their business. The Missouri roads, instead of carrying Missouri products to their natural terminal, would be only called upon to carry freight to the nearest point in a foreign State at which a railroad line could be topped, and the shipment, instead of being handled in Missouri, would go elsewhere. The law as proposed would absolutely prevent any Missouri line from meeting a cut made by a competing road in another State and would prevent the farmers from gaining any advantage from a rate war. The value of their crops would be greatly diminished as they would be compelled to compete with grain growers who were able to avail themselves of the low rates incident to railroad wars. A change in rates after ninety days' notice would have little effect, as other lines could readily adjust themselves to the altered conditions, and not only the Missouri roads but also the Missouri shippers would be injured. The only season when the citizens of this State would be when the amount of freight to be carried is so small as to prevent any general attempt being made to obtain it. As a matter of business no road would place its ninety-day rates at a point as low as the lowest rate in the State. The only season when the crops are being harvested, the only source of supply that could be counted on would be the section of country immediately adjacent to the city and the fields of Southern Illinois, the railroads tapping which are not subjected to the regulations proposed. A number of letters and telegrams were yesterday sent to members of the Legislature by St. Louis and Kansas City merchants, and it is hoped that the bill will be finally killed.

HEIRS TO MILLIONS.

Texas Claimants to New York Property—A Brutal Father.

HOUSTON, Tex., March 3.—The heirs of the late Robert Edwards of Kentucky have been late. Among them are Mrs. T. L. King of this city, Mrs. John Durst of Tyler, Mrs. Crouch, Mrs. V. O. Polk, J. D. Thomas, W. P. King, Mrs. Kate Burleson and the children of Mrs. Mollie Thomas, all of St. Augustine. At the time of his death Edwards was said to be sued for a tract of land in New Trinity Church and a part of Wall street. The story is that in the early days of the Edwards, ancestor of the late Robert Edwards, a sailor, bought thirty-four acres on the banks of Broadway. He leased the land to the British Government for ninety-nine years and the time of lease expired in 1880. It is claimed that when proceedings were instituted to eject the occupants of the land, offered a compromise of 40 cents on the dollar, which was refused. New suits will now be filed.

A BRUTAL FATHER.

PARIS, March 3.—The officers are looking for Rube Harris, who beat his 10-year-old boy with a horsewhip most unmercifully, cutting and bruising the child in a horrible manner.

HOI AN YE THAT HUNGER.

Morris' Restaurant and Dairy Lunch Rooms, 100 Olive street. Popular prices. Open Sundays.

A Statue to Gen. Sherman.

New York, March 3.—A meeting was held yesterday looking to the erection of an equestrian statue to Gen. Wm. F. Sherman.

Messrs. S. D. Babcock, Chauncey M. Depue, C. S. Smith, Wm. E. Dodge, C. N. Ellis, Horace Porter, John Sloan, A. S. Hewitt, John H. Starin and John H. Hinchcock were appointed an executive committee. The statue is to cost \$35,000, and it is suggested that preparations be made to unveil it on the anniversary of Gen. Sherman's death.

Deaths.

The following burial certificates were issued by the Health Department for the twenty-four hours ending 10 p. m. to-day:

Katigunda Wigand, 82 years, 8126 Hickory street; metro pneumonia.

John Johnson, 77 years, 1916 South Seventh street; senile debility.

William Henning, 1 year, 2000 Knoch street; bronchitis.

Walter Williams, 1 month, 1408 West street; pneumonia.

Isaac Williams, 72 years, City Hospital; kidney disease.

Henry Williams, 26 years, 820 Brooklyn street; pneumonia.

Harriet Hammond, 78 years, 6716 Michigan avenue; senile debility.

William Mearns, 75 years, 4317 North Twenty-third street; senile debility.

John Johnson, 77 years, Female Hospital; hemorrhage.

John Smith, 55 years, 1018 North Seventh street; consumption.

OUR TRADE WITH MEXICO.

GEN. ALVORD SAYS IT HAS BEEN RUINED BY THE MCKINLEY BILL.

A Prominent Texan Discusses the Direct Results of the Republican Party's Tariff Measure—Benefits to Be Derived From Reciprocity—Texas' Progress.

Gen. George F. Alvord of Dallas, Tex., is stopping at the Lindell. Gen. Alvord, who is one of the most prominent men in Texas, is a native of New Madrid, Mo. He was born while his father was confined to a dungeon cell in Mexico under sentence of death. Gen. Alvord was a member of Gen. Sam Houston's staff in the Texas revolution of 1836 and 1837 and just after the battle of San Jacinto was sent by Houston, Commander-in-Chief of the Texas forces and acting President of the temporary Republic, to New Orleans to get supplies for the Texas army. On his way back with the supplies, Alvord's vessel was captured by a Mexican fleet and he was taken to Matamoros where he was sentenced to death. He was saved, however, by the intervention of President Jackson of the United States, who threatened to declare war with Mexico if the order of execution was carried into effect. Gen. Alvord who is now an avowed and ardent supporter of the McKinley bill, declares war with Mexico if the order of execution was carried into effect. Gen. Alvord who is now an avowed and ardent supporter of the McKinley bill, declares war with Mexico if the order of execution was carried into effect. Gen. Alvord who is now an avowed and ardent supporter of the McKinley bill, declares war with Mexico if the order of execution was carried into effect.

Believes in Reciprocity.

"The present attitude of this country toward Mexico is suicidal on the part of the American Government," he remarked.

"I cannot understand it. Mexico is a republic of 12,000,000 people, rich in natural resources, but with little manufacturing. They had been shipping to this country lead and silver ores, and American were erecting large smelters along the Rio Grande to reduce these ores. In return for their ores we sent to Mexico manufactured goods of all kinds—clothing, buggies, agricultural implements, clothing, etc. Then the McKinley bill was passed and built a Chinese wall around the United States. It cut off all trade between this country and Mexico, a nation of 12,000,000 people, and did it, too, at the very time when the commercial relations between the two countries were being rapidly developed. Just to be sure, further enrich a dozen or more silver barons, all this trade was cut off from this nation and sent to Europe. Such blind policy is not the way to prosper a nation. We cut off all shipments of wagons, agricultural implements and manufactured articles of all kinds whereas thousands of people were interested merely to aid in the development of the country. The policy does not injure my mining interests in Mexico, but on the other hand benefits them, for it has resulted in the erection of smelters in Mexico near the mines and this enables us to operate the properties to greater advantage than ever before. It is the utter blindness and shortsightedness of the policy of this Government which angers me. The McKinley bill will have to be repealed and quickly too or all trade with Mexico will be lost to the United States forever. The Mexicans are now by the aid of the smelters they have been forced to erect sending bullion bars to Europe and getting all their goods from Europe. With America's dead, if the McKinley bill is not soon repealed and proper trade relations with Mexico devised that country will no longer want to make a reciprocity treaty with us as they will by that time have gone into manufacturing so extensively that they will no longer have any need for our articles. As the result of our policy in not making a reciprocity treaty with Mexico most wonderful strides are now being made there in the manufacturing line. Why, in the city of Mexico alone over \$5,000,000 has been expended in the past twelve months in manufacturing establishments. These enterprises include three large smelting works, a woolen mill, a capacity, two cotton factories, a woolen mill, flouring mill with 600 barrels daily capacity, two ice factories, door, sash and furniture factories, sugar refinery, distillery, brewery, foundry and machine shops, knitting works, candle, soap and match factories, etc. These in turn will bring others until the Mexicans can do any manufacturing work that we can do. They will refuse to enter into a reciprocity treaty which they have been so anxious to make for years."

"I would like to say a word or two about Texas," remarked the General, after a pause. "It is making wonderful strides. The city of Dallas, where I am now, is doing rapidly and steady growth that might almost be called a boom. Where we formerly put up two-story buildings, we now erect eight-story structures. Within the last year alone we are preparing to take in, Dallas will have a population of 60,000 people and that will make it a reserve money center and bring in money from Texas and the Territory and elsewhere. The city has thirteen different railroads and there will be more miles of railroad built in Texas the coming year than in any other State in the Union. The State, and particularly Northern Texas, is filling up rapidly, and the Texas farmers are to-day in better condition than those of any other State. It is not a word of exaggeration to say that the city of Dallas alone is doing rapidly and steady growth that might almost be called a boom. Where we formerly put up two-story buildings, we now erect eight-story structures. Within the last year alone we are preparing to take in, Dallas will have a population of 60,000 people and that will make it a reserve money center and bring in money from Texas and the Territory and elsewhere. The city has thirteen different railroads and there will be more miles of railroad built in Texas the coming year than in any other State in the Union. The city has thirteen different railroads and there will be more miles of railroad built in Texas the coming year than in any other State in the Union. The State, and particularly Northern Texas, is filling up rapidly, and the Texas farmers are to-day in better condition than those of any other State. It is not a word of exaggeration to say that the city of Dallas alone is doing rapidly and steady growth that might almost be called a boom. Where we formerly put up two-story buildings, we now erect eight-story structures. Within the last year alone we are preparing to take in, Dallas will have a population of 60,000 people and that will make it a reserve money center and bring in money from Texas and the Territory and elsewhere. The city has thirteen different railroads and there will be more miles of railroad built in Texas the coming year than in any other State in the Union. The State, and particularly Northern Texas, is filling up rapidly, and the Texas farmers are to-day in better condition than those of any other State. NOW \$2,400,000 REAL ESTATE

BUILDING AND LOAN ASSOCIATION, No. 2.

If You want to Save Your Dollars, If You want to Buy a Lot, If You want to Buy a House and Lot, If You want to Pay Off a Debt of Trust, If You want to Stop Paying Rent and Own your own home, JOIN NOW!

Has just opened. Shares are \$480 net, due \$2 per share. First payment is due 2d Wednesday, March 11. Can pay now—Pass Books are ready.

This Association is the largest, capitalised, and one of the most solid concerns in the city. It embodies the latest, best and most improved features of all. Any one can join and hold one to fifty shares. Can draw out by giving thirty days' notice and get dollar for dollar. After one year with 4 per cent interest. Any one borrowing gets \$480 net cash on each share, and pays only 5 per cent interest, and premium fixed at 25 per cent. Don't fail to get shares in the series now open.

Has been loaned during the past thirteen months and all on gilt-edge securities. We want, we need, more money and will pay 6 per cent interest on all sums loaned from \$500 upwards. Bring your idle cash at once. The affairs of this Association for the ensuing year, and which is a guarantee for its future financial success:

OFFICERS.
PRESIDENT JOHN C. LUTTMAN, Treasurer HENRY E. LEWIS, Secretary WM. ZINK, Board of Directors.
